overview

This program is created to assist grandparents who are caring for their grandchildren for various reasons. Recognizing this need, Dorothea Patterson, a grandmother herself, aims to help these caregivers by providing essential items for the children while also spreading holiday cheer.

While many Christmas giving programs focus on distributing toys to families in need, our priority is on clothing essentials before toys. We kindly ask sponsors to first provide each child with socks, undergarments, pants, shirts, coats, and shoes, followed by toys and any additional items that can ease the burden on these grandparents.
